Short Description

OTTIX PLUS is a xylol substitute an hazardous product for the human nervous system

Description

10 GOOD REASONS TO CHOOSE OTTIX:

- OTTIX PLUS is a xylol substitute an hazardous product for the human nervous system;
- OTTIX PLUS and OTTIX SHAPER are ready to use reagents: they improve the lab working avoiding complex dilution operations.
- Moreover to better ensure your safety pre-filled tanks are available for Diapath histoprocessor Tisbe and Tisbe Fast Donatello and Donatello Fast: they are very useful to remove further pouring and reversal passages;
- OTTIX SHAPER replaces both the dehydration and the clearification having less passages than a standard protocol;
- Time saving during histoprocessor/stainer loading phase due to the reduced number of tanks and passages;
- Using only two products OTTIX SHAPER and OTTIX PLUS the reagent storing

management becomes easier;

- To identify better OTTIX SHAPER from OTTIX PLUS it has been softly blue-stained;
- Microtome-cut improving of fatty tissues;
- Total consumption of OTTIX SHAPER and OTTIX PLUS is less of 30% than alcohols and xylols ones required in the standard protocols;
- Suitable for all histoprocessors and stainers on the market;
