

Reagents Kits for Clinical Chemistry

Brand: Fenox medical solutions

Product Code: AC035FN

Availability: In Stock

Call for Price: +2 01000 6546

Short Description

FENOX Medical Solutions offers an extensive range of reagents for clinical biochemical studies.

Description

FENOX Medical Solutions offers an extensive range of reagents for clinical biochemical studies.

Our reagents are produced to comply with international quality standards from high-grade chemicals supplied by leading European chemical plants.

Our kits are known for their stability and usability. All the methods and relevant information are available through helpful and detailed instructions developed by experienced professionals.

Convenient packages, long shelf life, competitive pricing and adaptability to all open type analyzers add to the list of advantages you get using products from FENOX Medical Solutions.
